“ Hey mom this is Wes yes the one that would always run and grab a paddle ever every time we got back from the store and tell ya Go ahead and spank me so I can go play. I always made sure you had a wonderful Thanksgiving and Christmas. Cause my whole family loved to go to Nanny's. Don't laugh to loud mom the angels are probably singing. I remember once I missed your birthday because of a fishing tournament I was in. I called you to tell you Happy birthday and you said you were sitting on the porch enjoying the evening and I asked you to go to Brooshire's to grab some medicine I couldn't find anywhere else which you said ok. We you got there the girl at the desk said "are you ms Speck Happy Birthday from your little boy Wes. A beautiful cake with Happy Birthday from Wes. The biggest ring of shrimp ever and a card. I miss you so much but I know you're ok now. Did you find Dad yet I hope so and give him a hug from me you always said he was the most handsome man you ever saw. You were always an inspiration in my life and it's still in my heart.
Mom I love you more than you'll ever know
I remember your face every time it would snow.
You were always there through thick and thin
Always loved me whether out of church or in.
I will see you again mom but I may ask god why,
Maybe he needed you to be a faithful greeter at that Dance hall in the sky.
Yeah I am crying mom half happy half sad I'll be with you and dad some day can't wait to see y'all.

“ I first met Margaret when she came to work for me at Rusk State Hospital. She was the most loyal and valuable employee I ever had. In a very short time we became good friends that blossomed into a close and loving relationship. Years later when I moved to another location, she moved with me. She has been my "adopted" sister for over 50 years. My heart grieves my loss of her.

My dear, sweet Margaret you will live in my heart forever. But I know I will see you again in that Heavenly Realm where we will again delight in being together again. Even when I moved far away and we did not get to see each other very often, you came to Colorado and years later to Utah to see me: it was as if no time had passed! And if they have Mexican food in Heaven, we will share the latest events in our lives and eat too many chips before we get to the main meal!

Most glorious of all, there we will bask in the light and presence of our Heavenly Father and our savior, his Son.

Bill, Wes and Mike, Dori,Lori, Jim and I share in your grief. We send our profoundt sympathy to you. I hope you realize the rich legacy she left you - her deepest love and the loving example of her life. Her iife revolved around you,her grandchildren and greatgrandchilren. She leaves a hole in our hearts that can never be filled.

“ My deepest condolences to the entire family..I had the opportunity to work with Margaret and later years became her neighbor, our relationship wasn't just as neighbors she was my friend/ family..

She had an open invitation my door was always open and my phone as well..

She accused me at one point of causing her to gain weight , 😊 I'm like I just called an invited you, but you're the one that say ok I'm on the way " if she didn't come I'd fix her up...Family dinners ,holidays or just anytime I was in the mood to cook she got a call in fact my sisters would ask me if I'd called Margaret or was she coming..She would get on the floor and play with my granddaughter when she was younger, my granddaughter is a teenager when I was telling them that Margaret had passed away..My granddaughter asked isn't she the one that would play with me and came to your house..If you ever had the chance to meet Margaret you would definitely remember her her smile and personality stood out.. I could write a book about my memories but the most important one was our love and respect for one another is something I have to cherish until I see her again.. Bill, Wes and Mike y'all have condolences and extended family I pray that God will give you comfort ,peace and strength I know that Margaret was ready when God called her name the walk that you have now have joy in knowing that she's resting and you will see her again..

“ Mom loved her active life. As with most seniors she began losing her self sufficient freedoms as she got older.

She loved her grandkids and great grandkids immensely and would do anything to make them happy. All she wanted is for them love her back which they did. She loved to dance and would meet friends at different venues to dance even up to about 75 yrs of age.

She loved her God and looked forward to being with Him. That's where she is now and probably dancing.

I love you Mom. I'll see you again one day. But until then, I will miss you....a lot.
