“ *I remember his breakfast, always a table full of delicious food an biscuits an gravy. He bought me my 1st porcelain doll. He helped raise me since my mother was young. He was always there for us. I wish I could've had the chance to say goodbye before he left but some people just didn't have the respect to tell us that he was in the hospital. Didn't even have the respect to tell us until after he was buried. I love you papa an you are always in my heart. I didn't have the strength until now to say much.*
